Grocers' Sugar Boost **Prophecy Called False**

"Madam, there is likely to be a sugar shortage in the near future, and I would advise you to lay in a large supply at the present price. The price is sure to increase."

This greeting from New York grocers to their customers has been widespread during the last few days, it was reported to The Tribune yesterday, but
so far as could be learned, there is no
foundation for the report of a price

It was declared by statistical ex-perts that, although the wholesale price of sugar was raised about a week ago from \$6.90 to \$7 a hundred pounds, the market generally is at 6 lesalers are selling at the old price. Furthermore, it was declared, the demand for sugar is comparatively slack, there is plenty of it on hand, and there is little likelihood of any justification for raising wholesale prices until the late spring of next year.

"Retail customers," it was said, "should pay no more than 7½ cents a pound, or eight cents at the outside, the latter to include delivery. There is no danger of a sugar shortage; in fact, this is the slack season for the refineries."

Ugly Face No Badge Of Purity, Women Hear

Special Dispatch to The Tribune.
PITTSBURGH, Nov. 2.—
American standards of beauty, be it for good or evil, are rapidly changing, and are no longer the New England standards any more than New England is America. Just as dirt is no longer a badge of holiness, an ugly face is no longer accepted as a badge of purity, and I think it behooves woman to stop and consider this matter of beauty-its effect on her friends, her home, her chil-

dren and herself." This was the pronouncement here to-day by Mrs. Gouverneur Morris, of New York, in her talk on the development of the "All American Beauty."

In commenting on man's supposed dislikes for the beauty parlor, Mrs. Morris said:

"Man condemns anything he does not understand, and any attempt on the part of woman to make herself beautiful arouses in man the suspicion that she is about to escape the old age domination which he has held over

Roosevelt Points To Common Sense Republican Record

Tells Bayonne Voters Dem-

Assistant Secretary of the Navy, Theodore Roosevelt jr., declared in a speech in Bayonne, N. J., last night, the "Democrats are not going to get

anywhere," in the coming election.

"The Republican party is a party of common sense; It deals with facts. We don't promise what we can't deliver. One of the common sense measures the Republican President and Congress put through is the tariff." Congress put through is the tariff," said Mr. Roosevelt.

said Mr. Roosevelt.
"Who are vitally interested in the "Who are vitally interested in the tariff? First, there are our working people; second, there are our farmers; third, our manufacturers. Taking the first, what is the effect on our working men? The government depends on the high standard of citizenship of its people. If we have no protective tariff what happens? We get into direct competition with cheap labor. It means we must come down. If we have no tariff immediately our working men will have to come down to higher fares, wanted to swindle the

Six in Plane Fly Over Alps

The Staten Island Civic League yesterday petitioned the Board of Estimate to change the name of the South Ferry stations on the subway and elevated lines to Staten Island Ferry. The old name has become antiquated and meaningless, they contend, and to make the change requested would prevent confusion and make it easier for strangers to find their way.

HelpMiller'Get' Smith Policies

Governor Now Understands What "Al" Meant by the "Government Getting Next to the People"

Governor Miller said last night that recent remark by Al Smith in a campaign speech about government getting

paign speech about government getting next to people was illustrated by Tammany's exploitation of Mayor Hylan's busses, as was shown by the testimony Grover A. Whalen, Commissioner of Plant and Structures, gave before the Transit Commission Wednesday.

"He said that he was not interested," said Governor Miller, "in the question of whether permits to operate busses were taken out in the names of dummies for favored Tammany Hall politicians. He said he was not interested in the question whether a five-centfare administration allowed a twenty-cent bus fare in order to yield a 100 cent bus fare in order to yield a per cent profit through dummies Tammany Hall politicians.

Just Like Dock System

"He was not interested so long as they were good Democrats. What Mr. Smith purposes to do is to turn over the transit system of the city, pre-cisely as the dock system of the city already has been turned over, to Tam-many Hall for exploitation in the in-terests of their brand of good Demo-crats"

crats."

George McAneny, chairman of the Transit Commission, also commented on the information concerning the Mayor's busses, gained through the commission's investigation. He said the commission thought there ought to be more bus lines and intended that all of them should be operated for service, not for profit, he said.

"The commission's inquiry into the commission's inquiry into the commission at present surrounding the

conditions at present surrounding the operation of the municipal bus lines," he said, "will continue for at least three or four weeks. Apparently the surface only has been scratched. The implied charge that the present moment has been chosen for the inquiry through some plot on the part of the commission and the court—and that is what it would amount to—is of course

what happens? We get into direct competition with cheap labor. It means we must come down. If we have no tariff immediately our working men will have to come down to he European standard of living or the factories will have to close down."

Colonel Roosevelt, speaking of his campaign covering nine states, declared that all Democratic candidates in those states favor the League of Nations. "The Democratic candidates in this state is sitting on the fence. He hasn't declared for it or against it. So therefore he is undeclared on this policy which is a party policy which he would be forced to accept. He won't stand up in his boots and tell us where he is."

Assistant Postmaster General John H. Bartlett, former Governor of New Hampshire, spoke briefly on the present Administration's reduction of government expenditures and the bonus question unhalding aid for wonded.
